Evaluations

- [Evaluations from Identification and Ecology of Sensitive Amphibians and Reptiles of Southern California Workshop](#)

Tallies of the scores from the evaluation forms received for the Identification and Ecology of Sensitive Amphibians and Reptiles of Southern California Workshop. There were 163 attendees we received 12 evaluations. Questions were ranked from one to five, "five" being the highest, best, or most and "one" being the lowest, least, or worst. The evaluation questions are presented with comments. Responses from the Western Section are presented after each.
